

Miele

Miele Outdoor Kitchen

Modularity | Precision | Performance | Refined Design | Enduring Quality

A new species is here — An **outdoor kitchen** that adapts

Precision ♦ Innovation ♦ Design

Building on more than 127 years of engineering expertise, the Miele Outdoor Kitchen is fully customizable, seamlessly adapting to the way people live while simultaneously bringing Miele's signature precision, innovation and timeless design to the outdoors.

Designed for Open-air Living

Designed to grow with its owners rather than define them, the Miele Outdoor Kitchen reimagines the traditional outdoor kitchen as an evolving living space.

Whether for a compact city balcony or an expansive outdoor entertaining space, its modular design allows each kitchen to be individually configured and expanded over time through more than 50 interchangeable components and accessories, adapting to changing homes, lifestyles and entertaining needs.

Miele's Outdoor Kitchen ecosystem brings together five complementary categories, creating a complete, seamless solution for outdoor cooking, entertaining and living.

Grilling & Cooking

Portfolio of different gas grills as anchor products into the ecosystem as well as top heat grills and gas cooktops.

- Fire Pro
- Sear Pro
- Cooktop

Washing & Cooling

An outdoor sink with retractable spout to prepare produce and wash dishes as well as a fridge to cool food and beverages.

- Washing
- Cooling

Organising & Storing

Modules in different sizes with stainless steel countertops to store all utensils and belongings outside.

- Module sizes and features
- Configuration matrix

Accessories & Consumables

A&C world with universal accessories perfectly fitting for gas grills, top heat grills and modules like a plancha, roasting baskets or pans.

- Grilling & Cooking
- Storage
- Tools & Clothes
- Covers
- Hoses & Connectors
- Clean & Care

App

Miele app showing all relevant data about the grill (temperature, gas tank level, etc.) and containing numerous delicious recipes.

- Miele App

Delivery & Assembly Service

Checklist to prepare for delivery and assembly of Miele Outdoor Kitchen

- Checklist

Fire Pro Grill

The heart of the Miele Outdoor Kitchen

Developed to remove uncertainty from outdoor cooking, the Fire Pro Grill combines precision engineering with intelligent technology, including five integrated temperature sensors, digital display screen and seamless connectivity through the Miele App.

Strong performance that impresses

- 4 x high efficiency burners with 14 MJ/h output offering great flexibility and power
- FullControl Display
- Push & Turn Ignition
- Rapid Heat Up
- GasStop

Modules are available with either a shelf or drawers behind the doors.

Onboard display (view & set)

Not only read but also set target temperatures for food probes directly at the grill.

Illuminated knobs

Control knobs are illuminated in white color when the grill is switched on.

Flame detection

The LED color switches from white to yellow providing a visual status of burner operation at all times.

Grease management system

Two drip trays housed in a full-width, telescopic drawer for a maximum convenience.

Plinth Panels

Panels that hide the castors and create a high-quality outdoor kitchen design.

Gas buddy system

Measures how much gas is left in the tank and gives an alert if the fill level falls under a predefined threshold.

Sear Pro

Top heat grill

Steakhouse
quality at
home

Push'n'Turn ignition

Stainless steel control knobs with reliable push'n'turn ignition for a safe and fast start and 2nd knob for easy height adjustment of the grate.

Extreme temperatures

Ceramic infrared burner which reaches up to 900°C for perfectly seared crust.

Convenient grilling

Practical telescopic runners make it easy to insert and remove the stainless steel grilling grate.

Grease management system

Removable dishwasher suitable drip tray to protect the area in front of the grill from dripping fat or juices when the grate is pulled out.

Cook

Gas Cooktop

Particularly
versatile

Precision gas cooking

A double ring burner in the front and single ring burner in the back brings versatility of your indoor cooktop outside.

- Power of wok burner: 13 MJ/h
- Power of rapid burner: 9 MJ/h

Easy to clean

The stainless-steel top and the enamelled cast iron grate are durable and easy to clean.

Wash

Sink & Tap

Enjoy
efficiency and
convenience

Functionality

Add a fully integrated sink and tap set to your outdoor kitchen, designed for effortless food preparation and convenient cleaning.

- 2 x different size sinks
- 2 x 14 litre waste bins
- Fully retractable stainless-steel spout
- a number of cooking accessories perfectly fit the sinks

Cooling

Refrigeration
Module

Outdoor
storage of food
& drinks

Convenience refrigeration

Keep ingredients and beverages perfectly chilled thanks to its robust design to withstand temperatures from -10 to +43°C.

- Useable capacity 105 litres

Modularity

Unlimited possibilities

Create your dream outdoor kitchen as all grills, modules and accessories are compatible and can be individually combined. Connect and install at the desired location in just a few simple steps. Grilling and Cooking 365 days a year with weather-resistant materials for the outdoor area.

Plug & Cook

Plug & Cook: All modules of the Outdoor Kitchen are delivered pre-assembled.

Soft Close

Thanks to Soft-Close, the doors and drawers close gently and quietly and remain securely closed with magnetic locking.

360° Castors

Thanks to 360° castors, the modules can be easily moved into place.

Plinth panels

Underline the clear design and prevent dirt from getting under the kitchen.

Individual Height adjustment

Stepless adjustable feet compensate for uneven surfaces and different floor textures.

Stainless Steel Worktops

The stainless-steel worktops are easy to clean and durable - perfect for preparing or serving ingredients.
